

RTO Information

This report presents summary information about the Registered Training Organisation

Name	Just Legal Pty Ltd
Street Address	1/530 Little Collins Street
City/town/suburb	Melbourne
State	VIC
Post code	3000
NTIS number	5814

Summary Report

The Summary Report provides information about the RTO and a snapshot of results for the scales measured by the Learner Questionnaire (LQ) and Employer Questionnaire (EQ).

For each scale, the Summary Report presents information about the:

- count of responses used to calculate the scale score;
- average scale score; and
- variation in scale scores.

Scores are reported on the response scale of 0 to 100, where 0 means 'strongly disagree' and 100 means 'strongly agree'.

Results are provided for learners and/or employers depending on the data entered into SMART.

This Summary Report can be used to analyse the number, average and variation of the survey responses. Comparisons can be made across scales, to previous reports, or between learners and employers.

Respondent Report

The Respondent Report provides summary information about learner demographics and training characteristics.

For each characteristic, the Respondent Report presents the:

- number of learners/employers in the population;
- number of survey respondents; and
- percentage of respondents.

Results are provided for learners and/or employers depending on the data entered into SMART.

This Respondent Report can be used to analyse the distribution of survey respondents across the RTO learner and/or employer population. It provides information on the representativeness and hence generalisability of the survey responses.

Item Report

The Item Report presents information about learner and employer responses to individual items on the Learner Questionnaire (LQ) and/or Employer Questionnaire (EQ).

For each item, the Item Report presents information on the:

- number of valid responses to each response category 'strongly disagree' (SD), 'disagree' (D), 'agree' (A), 'strongly agree' (SA), the number of 'agreement' (AG) responses, and the number of missing (MI) responses;
- percentage of valid responses to each response category 'strongly disagree' (SD), 'disagree' (D), 'agree' (A), 'strongly agree' (SA), the number of 'agreement' (AG) responses, and the number of missing (MI) responses;
- average score; and
- variation in scores.

Scores are reported on the response scale of 0 to 100, where 0 means 'strongly disagree' and 100 means 'strongly agree'.

Results are provided for learners and/or employers depending on the data entered into SMART.

This Item Report can be used to analyse feedback on phenomenon measured by each LQ and/or EQ item. It provides detailed information that can be used to address specific aspects of education and training.

Characteristics Report

The Characteristics Report presents information about learner responses to the scales measured by the Learner Questionnaire (LQ).

For each scale, the Characteristics Report presents information on the:

- number of valid responses;
- average scale score; and
- average variation in scores.

Scores are reported on the response scale of 0 to 100, where 0 means 'strongly disagree' and 100 means 'strongly agree'.

A separate Characteristics Report is provided for each of the scales measured by the LQ.

Scale scores are only computed for respondents who provided valid responses to all but two of the items in each scale.

Results are shown at the organisation level, and then broken down by any training or demographic characteristics that were entered along with survey data.

The Characteristics Report can be used to analyse feedback on each of the targeted scales measured by the LQ. This information is more reliable than results for individual items.

Group Report

The Group Report provides information about each nominated group and a snapshot of results for the scales measured by the Learner Questionnaire (LQ) and Employer Questionnaire (EQ).

For each scale, the Group Report presents information about the:

- count of responses used to calculate the scale score;
- average scale score; and
- variation in scale scores.

Scores are reported on the response scale of 0 to 100, where 0 means 'strongly disagree' and 100 means 'strongly agree'.

Results are provided for learners and/or employers depending on the data entered into SMART.

This Group Report can be used to analyse the number, average and variation of the survey responses. Comparisons can be made across scales, to previous reports, or between learners and employers.

Comments Report

The Comments Report lists the comments provided to the two open-ended questions on the Learner Questionnaire (LQ) and/or Employer Questionnaire (EQ).

Both the LQ and EQ contain questions that seek information about the best aspects of training, and about the aspects of training most in need of improvement. The report provides a print out of these.

LQ best aspects
